# Instant site feasibility: cut weeks of work to minutes with Algoma

Quickly begin evaluating any site in the US by just entering an address. You'll instantly get access to:
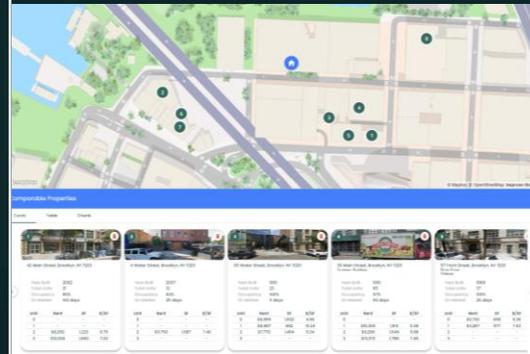

## Zoning information

The latest zoning, including permitted uses, setbacks, height restrictions, FAR, etc.

## Comparable properties

Lists of nearby properties and trends of rental prices, unit mixes, occupancy, etc.

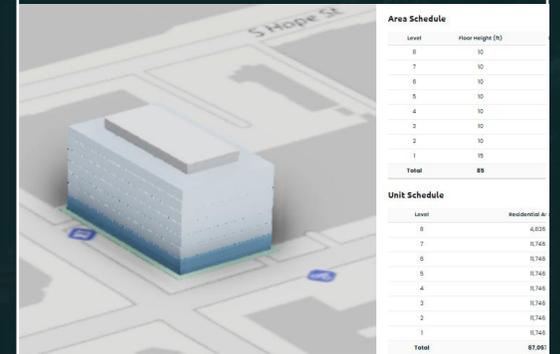

## Market intelligence

Analysis on the housing market and demographics that can be easily shared

## Site capacity calculations

Estimates of the building potential of a site and options to customize an initial massing

See the potential of any site faster with integrated access to zoning, comps, and site capacity all in a few clicks
