

AI powered Construction Takeoffs, Verified by Experts

Accurate takeoffs, estimates, and bid-ready proposals delivered in hours.

Water and Sewer

Linear pipe lengths, fittings, specialized structures and Earthwork volumes.

HVAC and Plumbing

Fixture counts, fittings and linear footage for ducts and supply.

Poured concrete and Formwork

Formwork, foundations, slabs, rebar, and concrete accessories.

Electrical

Fixture counts, supports and linear footage for wires and conduits.

Site prep Contractors

Land Clearing, excavation volume, cut-and-fill, surface area for grading.

And Other Trades

Any material, any trade. Just upload your plans and tell us what you need quantified.

HOW DOES IT WORK?

Get Accurate Material Quantities In 24 Hours

Instant Analysis

Upload your blueprints (PDF, BIM, etc.) and let our AI instantly analyze the scope.

Precise Quantities

Get detailed material lists exportable to Excel or CSV. Every stud, slab, and sheet counted.

Human Verification

Trust but verify. Our team of expert estimators reviews every number to ensure 100% accuracy.

24-Hour Turnaround

Don't wait weeks for a bid. Get your takeoff back in 24 hours or less.

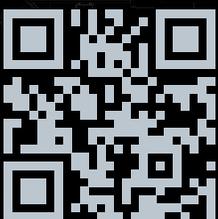

Cost Estimation

Our AI Agents contact your suppliers, get pricing and generate instant bid proposals.

Audit Trail

See exactly where every quantity comes from on the plan with our visual audit tool.
