JELD-WEN® Foundry™ Finishes:
The Look of Iron with the Performance Benefits of Fiberglass

Charlotte, N.C. — Introducing JELD-WEN® Foundry finishes, a first-to-market, hand-applied proprietary, multistep finishing process that creates the look and feel of real iron but with the improved performance and customization flexibility of IWP® Aurora® fiberglass exterior doors.

Iron doors create a desirable look with the benefit of added security. Using real iron or steel, however, means accepting poor thermal properties such as overheating in summer and frosting during winter.

IWP® Aurora® fiberglass stands up to the elements, resists denting or shrinking, and requires little maintenance. The IWP® Aurora® line is backed by a JELD-WEN limited lifetime warranty on the product and 10 years on the Foundry finish.

The IWP® Aurora® line offers complete size and design flexibility. It’s available in several contemporary options and can be built to customer-specified designs.

JELD-WEN’s Foundry finish is offered in five colors, including metallic black, flat black, silver, medium bronze, and tumbled white bronze, and includes new door and grille designs created specifically for the Foundry finish process. Custom colors are available as well. Foundry finish and IWP® Aurora® are available now through JELD-WEN authorized dealers.

Visit jeld-wen.com for more information about Foundry finish and IWP® Aurora® products.

###

JELD-WEN, founded in 1960, is one of the world’s largest door and window manufacturers, operating manufacturing facilities in 20 countries located primarily in North America, Europe and Australia. Headquartered in Charlotte, North Carolina, JELD-WEN designs, produces and distributes an extensive range of interior and exterior doors; wood, vinyl and aluminum windows; and related products for use in the new construction and repair and remodeling of residential homes and nonresidential buildings. JELD-WEN is a
recognized leader in manufacturing energy-efficient products and has been an ENERGY STAR® Partner since 1998. Our products are marketed globally under the JELD-WEN® brand, along with several market-leading regional brands such as Swedoor® and DANA® in Europe and Corinthian®, Stegbar® and Trend® in Australia.
