

Broan-NuTone Debuts Evolve Premium Bath Fan at the 2024 International Builders Show

Indoor air quality industry leader demonstrates excellence with new updates to the bath and exhaust ventilation category.

Las Vegas (February 27, 2024) – Broan-NuTone®, known for forward-thinking residential ventilation products, is evolving how bathrooms are ventilated with the new Evolve premium bath fan. Ensuring quality through its innovative design, Evolve uses TrueCFM™ technology to deliver unparalleled performance, maintaining CFM levels even with complex ducting configurations.

“Our goal is to deliver optimal indoor air quality through each of our products and, when it comes to bath and exhaust ventilation, Evolve delivers with best-in-class performance,” said Assistant Director of Marketing Dave Jones. “We’re thrilled to showcase this new product alongside some of the best industry technologies and products this year at the International Builders Show.”

Evolve can hold CFM up to 0.4” static pressure (s.p) as compared to competitors, seeing a drop-off in CFM at 0.25” s.p. This premium bath fan features near-silent operation, saves up to 30% on installation time and offers four base fan SKUs with optional sensing modules for easy fan selection and customization with both fan and fan/light models.

Evolve and other Broan-NuTone product offerings can be found in booth #C6715 during the International Builders Show (IBS) at the Las Vegas Convention Center. For more information on Broan-NuTone and its entire selection of products and solutions, please visit <https://www.broan-nutone.com/>.
