

Broan-NuTone Debuts Category-Defining Innovations at the 2024 International Builders Show

Residential ventilation industry leader excels in enhancing indoor air quality through a lineup of innovative new products and updates.

Las Vegas (February 27, 2024) – Broan-NuTone®, global industry leader in residential and whole-home indoor air quality, is launching several new products, updates, finishes and features across product lines at the 2024 International Builders Show, furthering its mission of providing customers with a better quality of life while giving builders the products and resources they need to bring efficiency and code-compliance to their projects.

“Our product lineup aligns with our objectives for cutting-edge automation, energy efficiency, and meeting customer preferences for stylish finishes and advanced functionalities,” said Dave Jones, Assistant Marketing Director, Broan-NuTone. “What’s more, we’re giving builders code-buster tools, from resources that help them ensure they’re meeting building codes and rebate options, to products that install quickly to save time on the job.”

New products include:

Slim 2.1 Broan® AI Series - Fresh Air Systems

The Slim 2.1, the latest addition to the Broan® AI Series of fresh air systems, is the industry’s most versatile and advanced fresh air system. Created to streamline the process of design, specification, and installation, the system provides superior air quality. This fresh air system offers the quickest installation in its category due to auto-balancing and self-adjusting VIRTUO™ technology, saving the installer up to 20 minutes per unit.

Evolve Premium Bath Fan - Exhaust Ventilation

The Evolve premium bath fan guarantees performance with its revolutionary design. Due to its TrueCFM™ technology, Evolve offers best-in-class performance unlike anything in the market, maintaining CFM even with complicated ducting. This premium fan has four base fan SKUs with optional sensing modules for easy fan selection and customization. Evolve also features near-silent operation and saves up to 30% on installation time.

Broan® F40000 Series Under-Cabinet Range Hood - Kitchen Ventilation

The Broan® 30-inch Convertible Under-Cabinet Range Hood has a stainless finish with PrintGuard™, an industry-changing fingerprint-resistant technology that allows for easy cleanup while deterring hood wear and tear. The F40000 series provides installation flexibility with 4-way convertibility to fit virtually all applications. The hood is designed for under cabinet use and is equipped with a 230 MAX Blower CFM, designed for years of trouble-free service, an

easy-to-clean grease filter, a protective lamp lens that distributes light evenly over the cooktop, and control switches for fan speed and light activation.

The booth will also include other ventilation products such as:

- Broan® AI Series 210 CFM Energy Recovery Ventilator (ERV) ([B210E75RS](#))
- Broan® 21-Inch Custom Range Hood Power Pack Insert ([PM300SS](#))
- High-Capacity, Light Commercial 310 CFM Ceiling Mount Ventilation Fan ([L300E](#))
- Broan® 110 CFM, 1.5 Sones ChromaComfort™ w/ Sensonic™ Bluetooth® Speaker ([SPK110RGBL](#))

Broan-NuTone can be found in booth #C6715 during the 2024 International Builders Show (IBS) at the Las Vegas Convention Center. For more information on Broan-NuTone and its entire selection of products and solutions, please visit <https://www.broan-nutone.com/>.
