

# How does a smart lock work?

## Your personal doorman

Forget looking for keys in a hurry or with your hands full. Your home will be ready to welcome you hassle-free with an open door.

 **Automatic locking**

 **Automatic unlocking**

## Your virtual keys

What if handing over your keys worked like sending an e-mail? When unlocking your door with a smartphone, simply create and send your extra "key" in the app.

 **Three user types**

 **Precise access settings**

tedee

# Unlock your keyless life

## Your convenient control

Stay updated on who's accessing your home with Tedee. Get detailed and real-time access history anytime.

 **Push notifications**

 **Live activity logs**

## At your home

**Forget your keys forever**  
Save time and hassle by locking and unlocking your door with your phone.

## Your next-level protection

What if securing your door worked like internet banking? Connecting your Tedee to the online cloud promises high-tech protection to secure your door with reliable digital technologies.

 **Cloud-based security**

## At your short-term rental

**Host automatically**  
Offer keyless and self-service check-ins so you and your guests don't have to wait around.

## At your business

**Ditch the access cards**  
Prevent cards from getting lost or forgotten and enable your employees to use smartphones instead. Use smart locks for cheaper, easier, and wireless access management.

## At your smart integration

**Turn your smart home on and off**  
Start your vacuum and disable heating when leaving the house. Upon arrival, be greeted with music, lights, and more of your devices. Your Tedee smart lock enables automated smart home scenes that you will love.

## Tedee smart collection

# Unlock your keyless life

It's time to enter your front door with a fresh perspective. Enable new ways to enter, protect, and share your home. The smart lock and your smartphone are all you need to get started.

Discover our range of smart access solutions.

# Tedee smart locks

## Tedee GO

**Replace nothing. Keep your keys.**  
Just add a smart lock to your existing setup.

For those who want to keep it simple and enjoy the main smart lock features.

## Tedee PRO

**Enter with pleasure.**  
Experience the luxurious feel of top-notch materials and award-winning design.

Enjoy the most superior smart lock on the market. Sleek, quiet, and with a unique look.

# Add extra smart benefits

## Tedee smart bridge

**Your front door remote**  
Connect your smart lock to the internet to control your door from wherever you are. Unlock your door remotely, check the real-time smart lock's activity, and control it using one easy mobile widget.

## Tedee keypad

**Unlock with your PIN**  
Put a small keypad outside your home to unlock the door without keys or smart devices. Just use the PINs for access sharing and security whilst maintaining total privacy.

## Tedee smart relay module

**Make gates and garages smart**  
Manage your street entrance, front gate, and garage door, all in one app. Replace your remote control, fobs, cards or keys with your mobile phone.

# What your Tedee day looks like

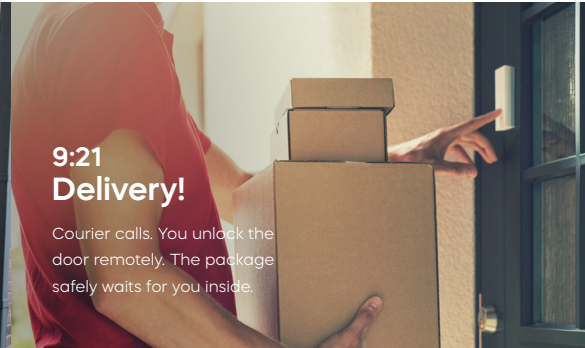

7:49  
**Off to work!**

The door locks automatically and integrates with your radio to turn the music off.

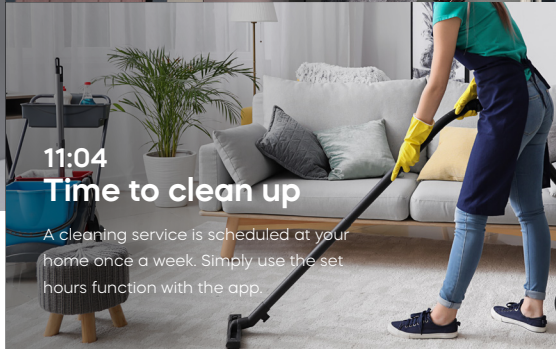

9:21  
**Delivery!**

Courier calls. You unlock the door remotely. The package safely waits for you inside.

11:04  
**Time to clean up**

A cleaning service is scheduled at your home once a week. Simply use the set hours function with the app.

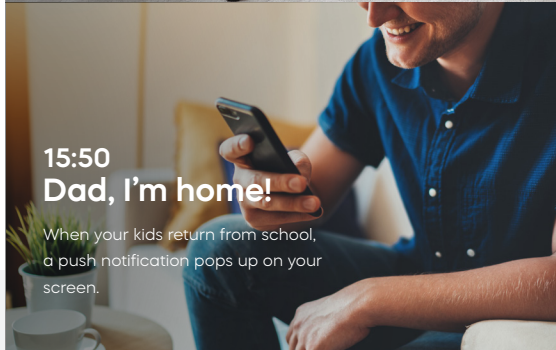

15:49  
**Easy like one-two-three**

No keys or no phone? It's no problem! Anyone at home can unlock the front door with a PIN on the Tedee keypad.

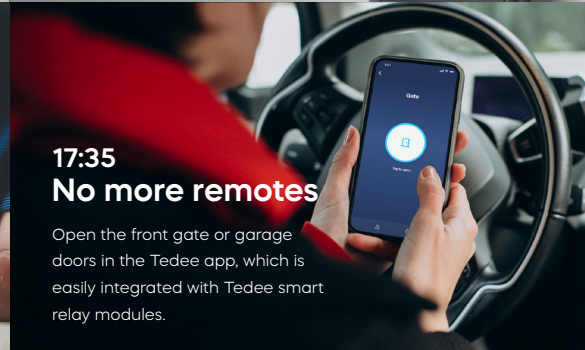

15:50  
**Dad, I'm home!**

When your kids return from school, a push notification pops up on your screen.

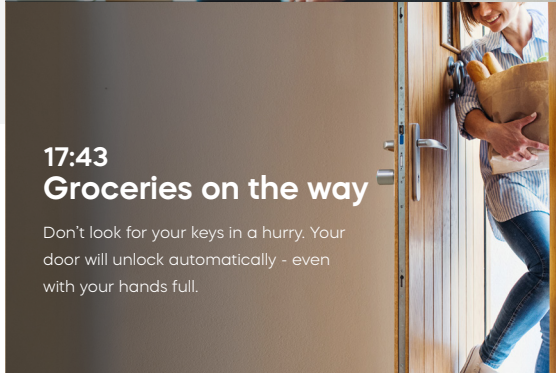

17:35  
**No more remotes**

Open the front gate or garage doors in the Tedee app, which is easily integrated with Tedee smart relay modules.

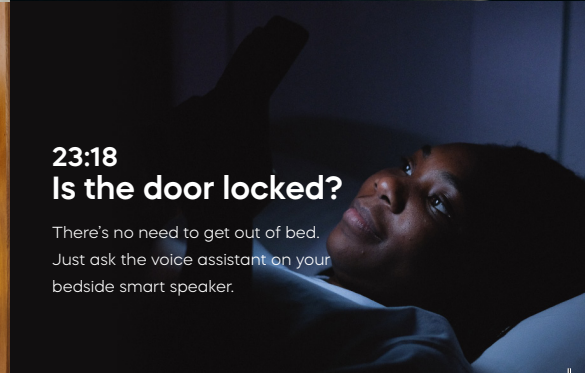

17:43  
**Groceries on the way**

Don't look for your keys in a hurry. Your door will unlock automatically - even with your hands full.

23:18  
**Is the door locked?**

There's no need to get out of bed. Just ask the voice assistant on your bedside smart speaker.

\* Status for June 2023  
\*\* Measured from the inside with the door closed: the distance between the cylinder axis and the door frame.
