

BUILD A BETTER DECK BY YOURSELF

NO CREW. NO PROBLEM.

LEVER straightens warped boards and locks boards in place, freeing you up to fasten.

THE BETTER BOARD BENDER FOR EVERY JOB

LEVER adjusts to wood and metal joists 1-½-3 in. wide and works with any board at any angle.

BOOST JOBSITE EFFICIENCY

The award-winning tool reduces the labor you need and speeds up installs, straightening wood in one turn and securing rows of boards and clips.

LEVER is backed by a CAMO Warranty to hold up on the job.

HOW TO

TIGHTEN LEVER TO THE JOIST.

BEND OR LOCK THE BOARDS IN ONE TURN.

FASTEN THE BOARDS.

LOCK BOARDS AND CLIPS

Use 2-4 LEVER tools across the length of the deck for the best clip installation experience with consistent spacing.

BEND WARPED BOARDS

One LEVER is strong enough to straighten out warped pressure treated and hardwood boards in one turn.
