## THERMALLY MODIFIED WOOD COLLECTION

Thermally Modified Wood Collection is wood cladding of the future. This beautifully stable wood cladding is made from an innovative thermal modification process which stabilizes the wood naturally with heat and steam. This process makes the wood less vulnerable to shrinking and seasonal expansion and contraction. What's more, it resists rot and insects for long-term performance.

- Naturally treated for exterior use
- Resistant to rot and insects
- T&G profile and end-matched for fast install and less waste

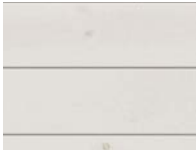

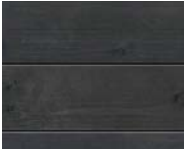

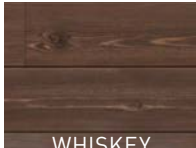

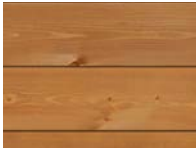

TIMBERLAND

## NATIVE WOODS SHIPLAP

Bring nature's beauty home with Native Woods shiplap. This tongue and groove wood cladding will make a stunning impression on walls, ceilings and on select covered exterior applications like soffits and porch ceilings.

- Interlocking pattern requires fewer exposed fasteners
- Boards feature natural knots and grain with a smooth, prefinished surface
- End-matched requires fewer cuts

	
ALPINE	ARCTIC MIST
	
NATURAL (clear coat)	NIGHTFALL
	
RIVERWASH	SADDLE
	
WHISKEY BARREL	GUNMETAL

## RUSTIC COLLECTION SHIPLAP

The Rustic Collection is perfect for your next reclaimed wood project. It's new lumber that has been distressed, primed and painted to have the authentic look and texture of vintage rustic barn wood.

- Rough sawn textured surface
- Natural and pre-painted options
- Easy to install on walls and ceilings

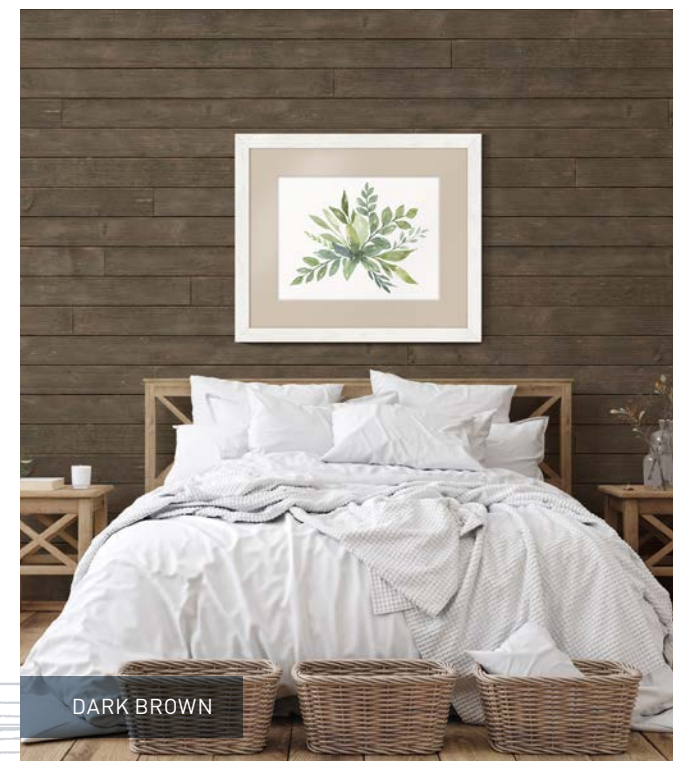

Available in 1x6 & 1x8 Shiplap | 1x4 Trim

LIGHT BROWN

## CHARRED WOOD SHIPLAP

Charred Wood lumber has been carefully burnt to highlight and enhance its natural beauty. The contrast of its charred surface and distinct wood grain distinguishes it from any other. Each board has a satin clear-coat to help preserve and protect it for interior applications.

- Shou-sugi-ban inspired charred surface
- Great for interior accent walls, ceilings and projects
- Easy to transport multi-pack kits

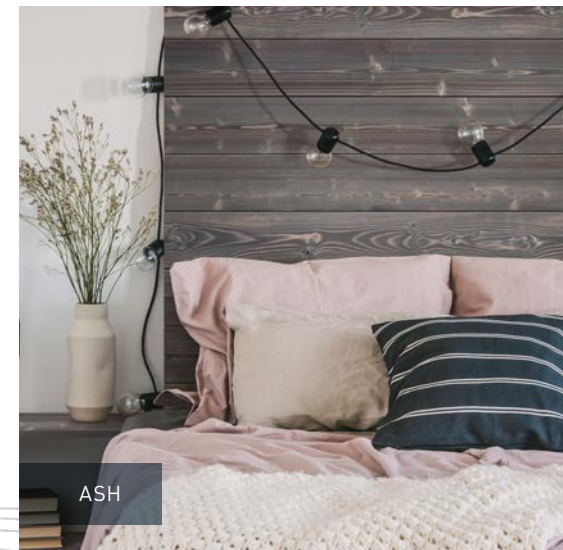

Available in 1x6 Shiplap | 1x6 Project Boards | 1x4 Trim

## PRO COLUMN STRUCTURAL POST

The UFP-Edge Pro Column is an engineered structural post made from finger-jointed SPF lumber. This structural support post can be used for a variety of interior and exterior applications in both new construction and repair/remodeling projects. It's available in a variety of sizes in lengths up to 16 feet.

- Primed and end sealed
- Engineered to be straight and consistent

## PRIMED TRIM & FASCIA

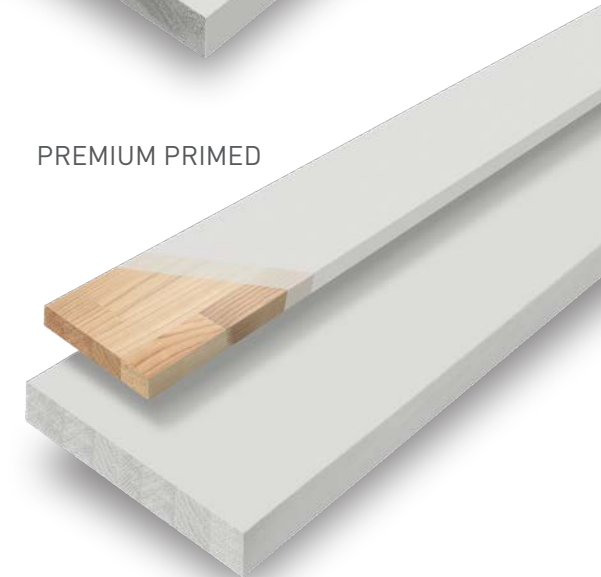

Our durable trim lets you create stunning accents that dress and protect your home. UFP-Edge's lines of primed exterior wood trim and fascia are sure to provide years of low-maintenance beauty and enhanced curb appeal. And for the ultimate protection, choose our new XTP (Exterior Topical Preservative) primer option. XTP primer fortifies each board and safeguards against rot and termites.

- Smooth, resawn and combed surface options
- Standard primed or XTP treated and primed
- Kiln dried, stable and ready for paint

SQUARE EDGE SHIPLAP

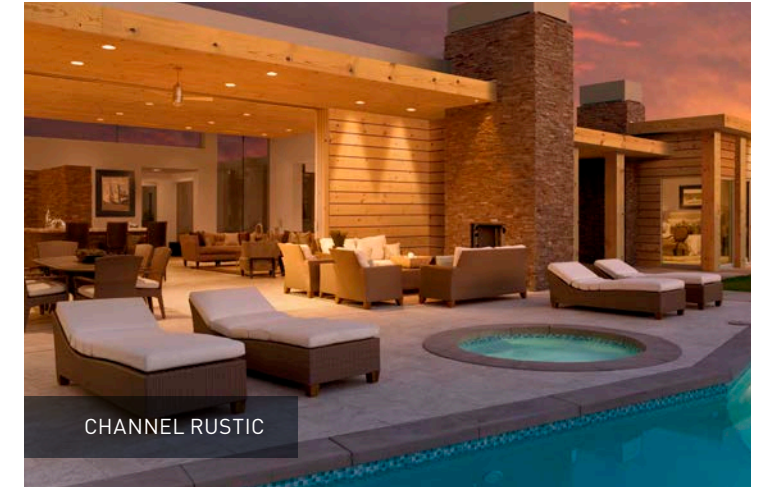

## PREMIUM PROFILED PATTERN AND SIDING

Our premium pattern boards are simply the best in the market. We use only the highest-grade lumber available, free of wane and with only small, tight knots that highlight the warm characteristics of natural wood. We shape and mould it using processes that protect the integrity of the wood and of the finished piece, including kiln drying to minimize swelling, warping and shrinkage.

- Manufactured to industry standards
- Kiln Dried After Treatment (KDAT) option
- Custom pattern and treatment options
