“

“Incredible is the word that came to mind when my wife and I completed our family room. When we contacted GenStone to inquire about the Stacked Stone, they were so into helping us understand how it works. My wife and I are so happy with there service because it made us feel comfortable when we purchased and installed it ourselves.”

—Atchison, Glenn Dale, MD

“

“This stone has transformed my lakehouse entryway! It’s so beautiful and it looks and feels real! You will not be disappointed. Believe me. As a NH resident with lots of real stone here this was a better option as it is very light weight and water resistant. My contractor loved it and it was his first installation. He was very impressed! You will not be disappointed!”

—Barnstead, NH

“

“I was delighted with the look and ease of install. I was concerned that cutting the overlap on cut ends was going to be tricky but it was simple with a hand saw. Friends and family were convinced it was real stone and couldn’t believe how quickly I installed it on my own.”

—Marshman, NB

“

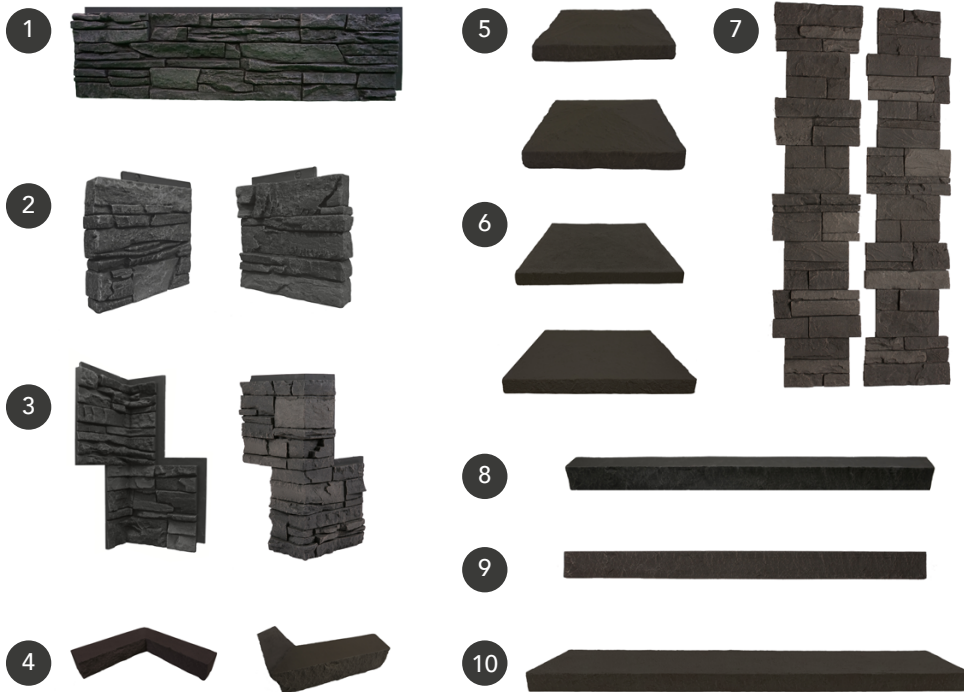

“I planned to build a very batman themed theater room and when I saw the iron ore, it was exactly what I wanted. It arrived and with each stack of the panel the room really came to life and added a fantastic depth and mood. Absolutely love the result and ease of cutting to paint touch up.”

—Paul, Florida

IRON ORE STACKED STONE SYSTEM

1. Full Panel
2. 12" Return (Left & Right)
3. Corner (Inside & Outside)
4. Corner Ledger (Inside & Outside)

(Peaked & Flat)
6. Column Cap
(Peaked & Flat)

7. Pillar Panels
8. Ledger
9. Trim
10. Wall Cap

Iron Ore Color Profile Inspiration

Bold and beautiful, GenStone Iron Ore faux stone panels were inspired by the dark, rough terrain of Northern Michigan. The picturesque Upper Peninsula is rich with iron ore deposits and surrounded by the unforgiving Lake Superior. The dark, pitchy rocks and cliffs are left glistening with each cascading wave that pounds against the shore.

Our GenStone design team mirrored this deep, natural allure with our Iron Ore faux stone panels. The design features a strong charcoal base with a satisfying blend of dark and light gray highlights. The Iron Ore panels bring a stunning, strong look to any project. Order your sample today.
