

GenStone®

Multi Color

Rich Burgundy
with Crimson
Undertones

“

“Wonderful customer service, our order came on time and we love the completion of our project, it’s beautiful!”

—Laura, Oklahoma

“

“Late last summer, I began planning and acquiring materials for a complete exterior re-work of our house. I would like to applaud and commend Rob Blausey for his working closely with me since we do not have a local distributor. GenStone and its representatives are a fine company with which to work and I would recommend them and their product.””

—Bill, North Carolina

“

“It dramatically changed the look of our house and lots of compliments from our neighbors and I think it really upped the value of our house.”

—Tom, Alaska

“

“I would highly recommend it to any of you out there that are looking to upgrade your home, an add on room, just anything that you’re wanting to upgrade.”

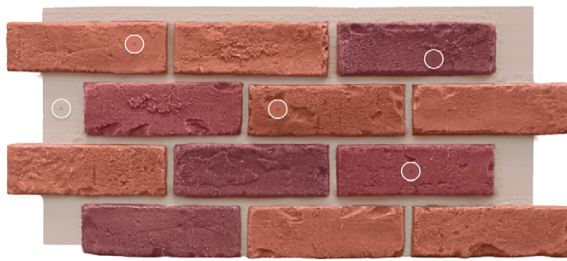

—James, Oklahoma

“

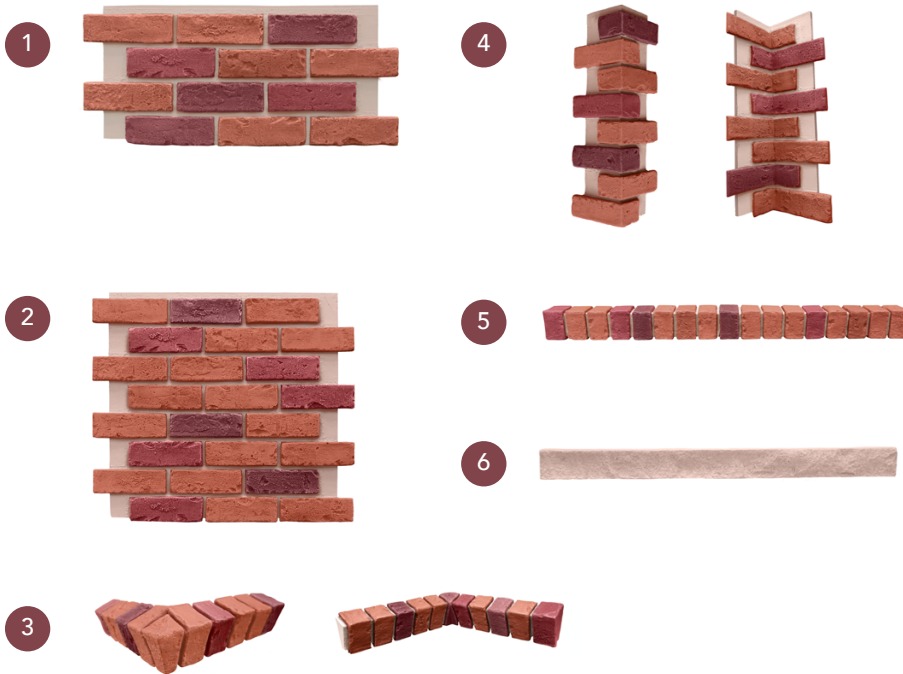

“The order was delivered the day it was supposed to be. We found the material very easy to install and the client loved the material. We would recommend. The sales staff was great to work with.”

—Mike, Georgia

MULTI COLOR BRICK SYSTEM

Multi Color Profile Inspiration

Have you ever witnessed the almost magical allure of a glass gem cornstalk on a crisp autumn day? The amber sunshine glistens on the patchwork of colors adding artistry and dimension that one shade could never achieve. The GenStone design team used this stunning Native American treasure as inspiration for our Mutli-Color faux brick panels.

Multi-Color panels boast a blend of traditional red, crimson, and terra cotta pigments that bring sophisticated craftsmanship to any project. This delightful style is versatile and pairs well with both traditional and eclectic design elements. Try our GenStone multi-color faux brick panels. Order your sample today.

Try out our visualizer to see if Multi Color is the best color choice for your next project!
