## ALUMINUM DECK RAIL: STRENGTH WITH BEAUTY

Wahoo Rail is an incredibly low-maintenance, dependably durable aluminum deck rail system that will never rot, splinter, chip, or warp. With rails that integrate with existing deck planks without compromising waterproof barriers and posts that integrate with the structural design of your deck, Wahoo Rail is the ideal replacement for existing outdoor deck railing. Wahoo Rail Deck and Balcony Railing System comes to you in complete, pre-drilled deck rail kits. (Deck stair rail kits are also available.)

### **NO PAINTING, SEALING, OR STAINING REQUIRED!**

Wash your Wahoo Railing as needed with water and mild soap- never use acidic or abrasive cleaning solutions.

### **RECYCLED, SUSTAINABLE MATERIALS**

Wahoo Rail aluminum deck rail is manufactured from 50% recycled content from industrial and post-consumer aluminum scrap metal. Building contractors and homeowners who use Wahoo Rail are able to qualify for LEED credits by using this eco-friendly decking material. Wahoo Decks is a proud member of the United States Green Building Council.
