

# THE NATURAL BEAUTY OF AMERICANA™ THERMALLY MODIFIED WOOD

**HEAT CHANGES THE WOOD. STEAM KEEPS IT STABLE & EQUALIZES IT TO THE OUTDOOR ENVIRONMENT.**

That's it. No injecting of toxic chemicals. No stew of oils, plastics, and resins. Nothing but pure, beautiful, natural Pennsylvania hardwood.

## Thermal Modification is our secret to:

- Resistance to rot
- Increased lifespan
- Class 1 durability (25+ years)
- Wildland-Urban Interface (WUI) Approved

Thermal Modification also turns the wood a beautiful chocolate-brown color that can be maintained with a UV protectant, or simply allow the wood to silver naturally.

# REAL WOOD FOR THE REAL WORLD

**DECKING • SIDING • PORCH FLOORING**

Made with Wood + Heat + Steam...and that's it. No chemicals, no plastics, nothing but pure, natural Pennsylvania hardwood.

# AMERICANA™ THERMALLY MODIFIED HARDWOOD DECKING

Americana™ Thermally Modified Wood Decking designs are easy to work with. We use standard symmetrical profiles which can be used with off-the-shelf hidden fasteners. You choose which side of the board you see, and with our structural end joint, the deck can be laid like flooring, with joints floating anywhere between joists. Less waste, less time.

**Our Thermally Modified Wood Decking is offered in 6' to 12' long and in 1' increments, with maximum 5%, 3/4'/5' long nested in bundles. Optionally, it can be cut on 16" increments.**

# AMERICANA™ THERMALLY MODIFIED HARDWOOD PORCH FLOORING

## + CUSTOM APPLICATIONS

# AMERICANA™ THERMALLY MODIFIED HARDWOOD SIDING & RAINSCREEN

Americana™ Thermally Modified Wood Siding & Rainscreen is 100% grown, harvested, and manufactured in Pennsylvania, the heart of the American hardwood forests. We offer a variety of profiles to get the look you want, whether it's vertical or horizontal. Go with Oak or Ash for a bold, pronounced grain, or Poplar for the smooth look. We are the manufacturer, so it can be completely customized to fit your taste.

**Our Thermally Modified Wood Siding & Rainscreen is offered in 6' to 12' long, and in 1' increments.**

Our T&G Microbevel allows the wood to adjust to wet/dry cycles without cupping or scalloping. Our proprietary structural end joint allows you to span greater distances than traditional butt-end Porch Flooring. So why stop at 8' or 10'? Extend your porch as far as you dare, and do some real outdoor living.

**Americana™ Thermally Modified Wood Porch Flooring is offered in 6' to 12' long, and in 1' increments.**

## ECO FRIENDLY

100% pure, natural hardwood, sustainably harvested from Pennsylvania's beautiful, vast forestland.

## LOW MAINTENANCE

It's up to you! Apply a UV protectant to maintain the exotic color, or let it naturally silver.

## NO CHEMICALS

Heat and steam... that's it. No plastic, oil, resin, wax, or additives. Americana is completely chemical-free and safe.

## PREMIUM HARDWOOD

This isn't your grandfather's pressure-treated pine, or your parents' plastic. It's the real deal: Ash, Oak, Poplar.

## EXOTIC APPEARANCE

Deep, luxurious brown maintained with UV protectant or wood silvered naturally.

## LONG LIFE

Class 1 durability. First class stability. This wood isn't going anywhere.
