

Sophisticated coverage.

Give yourself a warm welcome when you get home. With R-CAR, you'll drive into a carport with all the advantages of our pergolas: custom engineering, a sleek design that complements any style and protection from the elements.

R-CAR is available in custom sizes to fit any car combination, with extended pillars available so you can accommodate your RV or boat. We can mount it to your building or install it as a freestanding, drive-through shelter, and you can choose from an insulated fixed-roof panel like the R-SHADE or a custom roof material that matches your building. You can even add solar panels to produce green power for your EV. Like all our products, it's built for the elements - sheltered in luxury.

-  Insulated fixed panels to regulate the temperature
-  Fully extruded integrated gutters keep you dry and keep drainage out of sight
-  Durable aluminum provides the strength you need to protect you and your vehicle
-  Tall enough to protect your recreational toys, wide enough to house two vehicles with ease
