Boise Cascade Engineered Wood Products supplies dealers, builders, and manufacturers with quality engineered wood products for every application:

- ▶ **BCI®** and **AJS®** joists
- ▶ **Versa-Lam® LVL** beams, headers, rim board
- ▶ **Versa-Stud® LVL** wall framing
- ▶ **BOISE GLULAM®** beams

Boise Cascade's engineered wood products are also available all across Canada. We provide Canadian-specific, Limit States Design product and installation guides, backed by leading product support and technical assistance.

Our Canada product line* includes:

- ▶ **BCI®** and **AJS®** joists
- ▶ **Versa-Lam® LVL** beams, headers, rim board
- ▶ **Versa-Stud® LVL** wall framing

* Product availability varies by region; consult your Boise Cascade representative.

BC Calc® Sizing Software

Our advanced BC Calc sizing software performs engineering analysis to help our customers size beams, joists, columns, studs and tall walls for their building projects. It is simple to use, yet flexible and powerful enough to analyze a variety of common applications,

Best of all, this web-based application is free!

To learn more about our BC Calc Sizing Software or to register and access your free copy go to
