Hardie® Artisan Siding - Shiplap
Hardie® Architectural Panel - Fine Sand

ENDLESS DESIGN POSSIBILITIES

TABLE OF CONTENTS

Reimagining what's possible for your home exterior.

Now, you can modernize your home's aesthetic in a variety of never-before-seen ways. Our latest, most innovative products go beyond more traditional exterior designs to create new looks to help you make your personalized vision a reality.

Distinctive design, engineered to last.

Hardie® Artisan Siding

Offering gorgeous, deep shadow lines and extra thick boards, Hardie® Artisan siding will set your home apart. The 5/8-inch thickness and unique features of Hardie® Artisan siding provide precise fit and finish as well as the freedom to miter corners for attractive, streamlined styling.

LOCK JOINT SYSTEM

Hardie® Artisan siding flat wall profiles have a lock joint system that helps enable faster, cleaner installation. Orient vertically, horizontally or use as soffit.

MITERED CORNERS

Add sophistication to your design with mitered corners that can be crafted on-site with any Hardie® Artisan profile.

Aluminum extrusion to be used along horizontal control joints.

Base trim | Base trim and accessories for a clean and robust ground finish.

Raised Reveal Base Trim

Aluminum extrusion with reveal and ledge to rest panels.

L Base Trim

Aluminum extrusion with minimal profile to act as a starter strip

Tougher than the elements.

Fire Resistant

A home's exterior is its first line of defense against extreme weather and fire. Prepare your home for the unpredictable with non-combustible siding that won't burn.

- Listed for use in wildfire-prone Wilderness Urban Interface (WUI) zones in the western US.
- Cal-Fire compliant

Pests

Mother Nature's creatures wreak havoc on wood-based siding, which is more susceptible to damage from termites or other pests. Hardie® fiber cement holds no appeal for pests, helping to save you from added maintenance hassle. — don't let your home fall prey to these critters.

Mother Nature

Your siding is exposed to Mother Nature all day, every day. You deserve to feel confident that it can hold its own throughout it all — from the changing seasons to even the most extreme weather.

- FEMA Class 5 flood damage resistance (highest rating)
- Rated for use in High Velocity Hurricane zones by Miami-Dade County Florida

Water-Resistant

From rain to ice to snow, Mother Nature's precipitation patterns leave wood exteriors at risk to cracking, swelling and warping. Take shelter from the storm knowing that your exterior is built to withstand water damage.

*Hardie® siding complies with ASTM E136 as a noncombustible cladding and is recognized by fire departments across the U.S. including Marietta, GA, Flagstaff, AZ and Orange County, CA. Fiber cement fire resistance does not extend to applied paints or coatings, which may be damaged or char when exposed to flames.
