FEATURES

INTRIGUE® 42

AN EXCEPTIONAL FIRE

Any gas fire, when well-engineered looks great. But once you discover the Intrigue®'s fire, you will find no equal in the industry! The glowing embers are positioned below the log set. We've reproduced the look of a real wood fire to a degree never achieved before using gas. The gorgeous flame matches the look of much larger BTU-rated fireplaces on the market but in turn consumes less gas in the process, providing you with incredible enjoyment while performing more economically than other fireplaces.

HEATING COMFORT

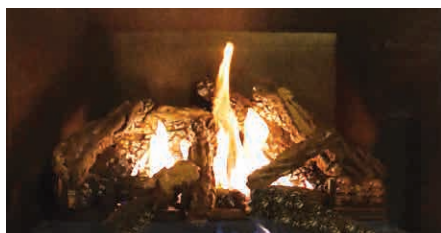

The Intrigue® combines radiant and convection heat providing you with one of the most efficient fireplaces on the market, it will warm your heart as well as your home.

- 12-piece hand carved high definition log set in your choice of oak or birch finish.
- Fan system included

- Ambient light included
- Ecotel Full Function Remote included

FEATURES

INTRIGUE® 36

THE RIGHT BALANCE !

Typical mid-size fireplaces are either too shallow or way too deep. Shallow fireplaces offer very little flame and deeper fireplaces take too much space into the room. The Intrigue® 36 has the right balance!

Offering 2 inches more depth than most other fireplaces, the flame becomes much more appealing and relaxing. Still, the required depth to install it remains under 19", which makes it perfect for renovation projects as well as new construction.

A piece of Timber really adds value to a fireplace mantel. With fireplaces becoming more and more efficient, clearances to combustibles have increased. Too many times, having a piece of wood above the fireplace is simply not possible. This is why, Ambiance® Dealers have decided to get a solution in place. **These Ambiance® Mantels are non-combustible!**
