INDOOR AIR QUALITY

INDOOR AIR QUALITY PRODUCTS
napoleon.com

YOU SHOULD CARE ABOUT THE AIR IN YOUR HOME. WITH NAPOLEON, IT'S SIMPLE.

With Napoleon IAQ products, breathe fresh, protected air. Poor indoor air quality causes symptoms like headaches and congestion. Our products reduce viruses, allergens, and air pollution, saving energy while managing pathogens. Get increased protection against germs without opening windows or raising costs. Live with peace of mind, knowing your indoor air is always at its best. Napoleon makes it simple.

ASK FOR CLEAN AIR. ASK FOR NAPOLEON.

OUR FAMILY OF PRODUCTS. READY TO PROTECT YOURS.

Individually, each of our IAQ products has its own advantage for improving indoor air. Used together, they give your home the best possible air quality through disinfecting, circulating, and filtering technology. Get to know the **UV-C technology**, and **MERV 11 Media Filter** on the following pages and how they can fill your home with safer, fresher air.

UV-C TECHNOLOGY SYSTEM.

Napoleon's UV-C technology safely sterilizes airborne contaminants, including viruses, bacteria, mold, and pathogens. It utilizes intense UV-C radiation, a chemical-free method inspired by hospitals. Protect yourself from threats like coronavirus and cold & flu season with UV-C technology

UV-C Air Sanitation System

- Chemical-free disinfection
- Flexible installation configuration
- Medical or standard grade sterilization

MERV 11 Media Filter

- Captures 85% of unwanted particles
- Requires low maintenance with easy-to-change filter
- Extends the life of your HVAC system

**AN ENTIRE SYSTEM WORKING TO IMPROVE
YOUR INDOOR AIR QUALITY.
THAT'S NAPOLEON.**

AIRBORNE VIRUSES STOP HERE

We know protecting your home and family is important. Installing a Napoleon furnace with UV-C technology improves your at-home defense, especially during cold and flu seasons, and kills coronaviruses.

FULL KIT

- Medical Grade 120 Watt High Output - UVHFS120WB
- Standard Grade 36 Watt Output - UVLFS036WB
- Adjustable unit in main module
- Chemical-free disinfection

TWIN KIT

- Medical Grade 120 Watt High Output - UVHMS120WB
- Standard Grade 36 Watt Output - UVLMS036WB
- Adjustable units for multiple configurations
- Chemical-free disinfection

FURNACE KIT

- Standard Grade 18 Watt Output - UVLAS018WB
- Chemical-free disinfection
- This unit is standard in Ultimate 9700 series and is an option kit for the Ultimate 9600 series

MERV 11 MEDIA FILTER

Napoleon's MERV 11 Media Filter is easy to install, maintain, and replace, providing a cost-effective solution for filtering indoor air. It captures dust, dirt, and unwanted particles as your HVAC system cycles the air, ensuring you breathe cleaner air while extending your system's lifespan and improving its efficiency. MERV stands for Minimum Efficiency Reporting Value, and the MERV 11 rating makes it an excellent choice for residential use.

MEDIA FILTERS

- High Efficiency: Removes airborne contaminants down to 0.3 micron at 492 feet/minute.
- Cellulose-Free Material: Constructed with hydrophobic polyolefin fibers that don't shred, absorb moisture, or sustain mold growth.
- Unique Design: Features a structured density gradient with an electric charge for superior initial and sustained efficiency.
- Extra Deep Filter: 5/14" depth contains more media material, providing a larger collection area, longer lifespan, and lower static pressure.
- Exact Fit: Ensures a precise fit to the cabinet without foam, sponge, or fiberglass filler, maximizing air cleaning efficiency.
- Long Lasting: Filter lasts up to one year in standard applications.
- Easy Mounting: Holes facilitate mounting to ductwork or air handling system, with reversible airflow for installation in any position.
- User-Friendly: Filter cartridge is easy to change without dealing with complicated combs or brackets.
- Durable Construction: Heavy gauge galvanized steel cabinet with a corrosion-resistant powder coat finish on the door.
