the **pre-built**
ready to roll-in
and-install
fully furnished
and accessorized

bathroom

that is changing
the way ADUs are built.

THE FIRST NAME IN

dorothy

Introducing the **pre-built** bathroom.

Our **pre-built** bathroom comes pre-plumbed, pre-wired and pre-finished. But that's just the beginning. Our ADU bathroom is pre-built specifically to roll in under a 7-foot garage door header with a top that's designed to lift right off. As if that's not enough, it comes fully equipped with a wall-hung toilet, full walk-in toilet and a custom vanity. We pre-assemble everything in our factory, load it onto our truck and roll it into your garage ADU.

A few more pre-thought out features:

Recessed LED lighting

Spacious walk in shower with easy access low sill

Hand-held sprayer

Tempered glass shower enclosure

Wall hung TOTO toilet with dual flush system

Future-proofed with electric outlet and water supply for washlet seat

Coordinated towel racks, robe hooks, door handle and faucet

Wall hung modern vanity for easy cleaning of the floor

Pre-inspected and compliant with state building codes
