Barrette Outdoor Living® Updates Options for Mixed Material Fencing

CLEVELAND, OH (January 7, 2022) — Barrette Outdoor Living, Inc., a leading provider of outdoor living products, updated its line of Mixed Material Fencing to offer more versatile design options with easier installation. This decorative line features matte black aluminum framing and provides a high degree of flexibility by allowing vinyl or wood infill boards* to be installed horizontally or vertically.

For even further customization, Barrette Outdoor Living's Mixed Material Fencing can accommodate the company's Decorative Screen Panels* — available in a wide variety of patterns and colors — as a top section. Mixed Material Fencing can serve as a traditional fence or can be arranged as individual or grouped panels that serve as a divider or privacy treatment.

"The modern, on-trend design of our Mixed Material Fencing — with its many options for customization — will no doubt be the talk of any neighborhood where it is installed," said Ryan Burgess, Industrial Designer at Barrette Outdoor Living. "It's the perfect choice for homeowners who are looking to show a little creativity when selecting a product that helps bring their outdoor vision to life."

Offering both in-ground and surface mount installation, this easy-to-install product features grooved posts that enable infill boards to effortlessly slide into place in either a horizontal or vertical direction without the use of brackets. If a semi-privacy option is desired, spacer blocks** are available to maintain consistent spacing between horizontal wood infill boards as well ensure even spacing from the ground to the bottom of each panel.

Featuring a Transferable Limited Lifetime Warranty, Barrette Outdoor Living provides industry leading warranty coverage and is the market leader in both vinyl and aluminum fencing. The updated line of Mixed Material Fencing will be available in March 2022.

**Vinyl and wood infill boards and Decorative Screen Panels sold separately.*

*** Spacer blocks are included with Surface Mount Kit. Sold separately for in-ground fence installation.*
