## **STONE HARBOR HARDWARE EXPANDS LINE WITH DECORATIVE FOLDING BARN DOOR HARDWARE SETS**

Orlando, Fla. – February 8, 2022 – Upgrading the look of bi-fold doors is now easier than ever, thanks to Stone Harbor Hardware’s new decorative folding door hardware sets.

Designed for bi-fold door applications like closets and pantries, the hardware sets are available in two styles: a modern, top mount style and a rustic barn strap style.

“While decorative barn doors remain a popular design choice, not everyone has the space for a sliding door,” said Erich Russ, president of Stone Harbor Hardware. “Our folding door sets offer a space-saving solution for those who want the barn door look in a tighter space, such as a laundry room, closet, or entryway.”

Both designs come in the popular matte black finish. The sets include the hangers, track, hinges, and all necessary installation hardware for a two-door setup and are available for 60” and 72” openings.

Design and Construction Week attendees can see the new folding door hardware, along with the rest of the Stone Harbor product line, at booth #S1400.

In addition to the folding door hardware, the company also manufactures a variety of sliding door hardware, including decorative barn door hardware sets, pulls, and other accessories, giving both designers and home owners a complete solution for decorative door hardware.

Established in 2010, Stone Harbor Hardware LLC manufactures and distributes quality builders, bath, cabinet, door and closet hardware. For more information about the company, please visit [www.stoneharborhardware.com](http://www.stoneharborhardware.com).
