

FOR IMMEDIATE RELEASE

STONE HARBOR HARDWARE EXPANDS CABINET HARDWARE LINE WITH FOUR NEW COLLECTIONS

Orlando, Fla. – February 8, 2022 – To create the perfect look, designers and builders need to bring the right pieces together. With Stone Harbor Hardware’s new cabinet hardware collections, designers, builders, architects and homeowners have even more resources to help create their dream kitchen or bathroom.

The company has introduced four new cabinet hardware collections: Zephyr, Metropolis, Plateau, and Rubicon. The Zephyr, Plateau and Metropolis collections are available in the popular matte black, satin nickel and vintage bronze finishes, while the Rubicon collection comes in matte black and satin nickel. Each collection includes the following pieces:

Zephyr	Plateau	Rubicon	Metropolis
96mm pull	96mm pull	96mm pull	96mm pull
128mm pull	128mm pull	128mm pull	128mm pull
160mm pull	160mm pull	160mm pull	160mm pull
192mm pull	192mm pull	192mm pull	192mm pull
224mm pull	224mm pull	224mm pull	224mm pull
256mm pull	256mm pull	256mm pull	1-7/32” knob

“With this expansion, we truly offer something for everyone,” said Erich Russ, president of Stone Harbor Hardware. “The Metropolis’ Art Deco-inspired design is perfect for transitional homes, and the Rubicon’s slim profile offers a modern twist on a classic shape, while our Zephyr and Plateau collections feature sleek, modern styling.”

The Rubicon, Zephyr, Plateau and Metropolis collections will be available later this summer.

All Stone Harbor cabinet knobs and pulls include cabinet screws for easy installation. The hardware is packaged in case-cut boxes, making it ideal for displaying on store shelves. Design and Construction week attendees can see the new collections, along with the rest of the Stone Harbor product line, at booth #S1400.

Established in 2010, Stone Harbor Hardware LLC manufactures and distributes quality builders, bath, cabinet, door and closet hardware. For more information about the company, please visit
