

# JobTread Software Reaches 1,000 Construction Customers

Monday, January 9, 2023

*JobTread's construction management software now helps more than 1,000 construction businesses improve the way they run and manage their businesses.*

Richardson, TX, January, 9, 2023

JobTread first launched its construction estimating and project management software to the market in January 2021 and signed up over 200 customers during its inaugural year. Today the team at JobTread is thrilled to announce that it has achieved the significant milestone of 1,000 active customers subscribing to its platform.

"We are extremely grateful to all of our customers for joining us on this journey and for helping us achieve this monumental milestone," said Eric Fortenberry, Founder & CEO of JobTread. "We could not have done it without their support and trust in our team. We look forward to continuing to serve and provide them with the best construction management software on the market."

JobTread has been focused on delivering exceptional software for the builders and contractors to help them manage their projects more efficiently, increase sales, and hit their target profits. The Company has released numerous updates to its platform over the past year and added multiple native integrations with complementary products and services to continue improving the value of JobTread for its customers.

"JobTread has made a tremendous difference in our organization and has literally put our profits through the roof. I highly recommend you sign up for JobTread, it has been awesome for us," shares Michael Martinez, Owner of Helpflow Pools.

JobTread is looking to continue building its presence in the marketplace and plans to grow its team from 15 employees to approximately 25 by the end of the year. The Company is hiring across all departments and those interested in joining the team can apply for open positions directly through the Company's website: <https://www.jobtread.com/careers>

"We couldn't be more excited about the opportunities ahead. Our business is growing like crazy and the feedback we have received from

our customers has been incredible. I can't wait to see what 2023 has in store for us," shares Fortenberry.

## About JobTread

JobTread provides end-to-end construction management software to help jobs based businesses more efficiently manage all of their processes, from pre-construction through to project completion. The platform creates a central location to manage jobs, teams, schedules, documents, photos, finances, customers, vendors, sub-contractors, and more all in one place. Its budget-first approach creates financial transparency at every stage of a project, mitigating risk and ensuring the project stays on time and on budget. Get organized, complete your projects on time, and increase your profits with JobTread.
