## ATLANTIS RAIL LAUNCHES THE NEW ORION II CABLE RAILING SYSTEM

A Powder-Coated Aluminum Framework, Horizontal, Stainless Steel Cable Infill and Continuous, Flat Top Rail

Plymouth, MA, April 18, 2023— Cable railing manufacturer, Atlantis Rail Systems has launched a new cable railing system featuring a powder-coated aluminum framework combined with horizontal stainless steel infill. The framework is made up of 3" x 3" posts, a standard bottom rail, and a flat continuous top rail. The cable infill consists of HandiSwage™ fittings and 1/8" cable. Atlantis Rail is excited to introduce the new [ORION II System](#).

*"The ORION II is a perfect blend of simplicity and style. The combined benefits of a modular framework featuring high quality powder-coated aluminum components mixed with the beauty of stainless steel cable infill make this system a popular low maintenance choice".*

- Seth Porter, Product Manager

Atlantis Rail Systems presents a cable railing system with a simple design that allows installers to handle a variety of rail transitions using a small set of adaptive rail fittings. Due to the popularity of aluminum posts and railings, Atlantis Rail continues to grow and design new cable railing systems to meet those needs.

**Atlantis Rail Systems** is a leading manufacturer of premium stainless steel and aluminum cable and glass railing systems. Their systems are ideal for commercial and residential, indoor and outdoor applications and are available through a network of [Authorized Dealers](#) located throughout the United States and internationally. Please contact an Atlantis Rail Sales Representative to request a quote for the new ORION II Cable Railing System.
