New Delta BreezAirMover Keeps Residential and Commercial Spaces Dry, Comfortable, and Well Ventilated

FREMONT, Calif., November 10, 2022 — Delta Electronics, a global provider of power and thermal management solutions, introduces the new Delta BreezAirMover AMR1200, a powerful, quiet, and energy-saving air mover to keep your residential and commercial spaces dry, comfortable, and well ventilated. The BreezAirMover is the most advanced air mover in its class, with a patented dual-blade design coupled with a brushless DC motor offering significantly greater efficiency and superior performance.

The BreezAirMover features a high-efficiency brushless DC motor that offers energy savings of up to 70% compared with similar products with AC motors. It can deliver up to 1,200CFM of airflow while using only 97W and 1.4Amps. Its low sound of 55dB-A at high speed means it has up to 12dB-A lower noise output than similar models. This unit is the ultimate solution for the water damage, restoration, and facility management industries.

The digital control panel with LED display, controls the power, its 3 available speeds, a timer function/display, and has a continuous time counter for up to 99 hours. When used indoors, the BreezAirMover is ideal for drying floors, carpets, ceilings, and walls as well as providing indoor air circulation. Several features that make this unit perfect for these applications are its lightweight design (12.4 lbs.), 3-angle drying positions, an arc-shaped ergonomic handle, and a balanced center of gravity which allows for easy handling.

“The BreezAirMover is built to keep the restoration contractor and/or facility manager on schedule,” said Alex Lee, Vice President of Channel Business, Delta Electronics Americas Region. “With a new innovative design and state-of-the-art brushless DC motor technology, this unit has all of the features needed to get the job done efficiently.”

This unit can be daisy-chained up to 8 units using 2 receptacles with a (15A circuit breaker), stacked up to 4 units high for easy storage, and is ETL listed conforming to cETLus safety standards.

Benefits:

- High-efficiency brushless DC motor offers energy savings of up to 70% compared with similar products with AC motors

- Super low noise operation of 55 dB-A at high speed, up to 12dB-A quieter than similar models
- Digital control panel with LED display controls 3 speeds, timer function, and continuous time counter, up to 99Hrs
- Patented dual blade design creates an airflow stream up to 32ft
- Low 1.4Amp draw allows for up to 8 units to be daisy-chained with 2 receptacles (15A circuit breaker)
- Stackable up to 4 units high for easy storage
- Lightweight 12.4lb design, Arc-shaped handle, and balanced center of gravity allow for easy carrying
- 3-angle drying positions (0°, 45°, 90°) can be used

About Delta Breez

Delta Breez is a line of residential ventilation fans with advanced engineering. Using Delta's own brushless DC motor technology, Delta Breez fans are durable, energy efficient, and incredibly quiet. Quality and sustainability are core values of Delta, which is why Breez fans have earned the ENERGY STAR® mark. In fact, 95 Delta Breez models are ENERGY STAR® qualified and 30 models are distinguished with ENERGY STAR's Most Efficient for 2022. With noise levels as low as <0.3 sones and energy savings over 70 percent versus traditional AC motor fans, Delta Breez is built with a commitment to excellence.

About Delta Electronics

Delta, founded in 1971, is a global leader in switching power supplies and thermal management products with a thriving portfolio of smart energy-saving systems and solutions in the fields of industrial automation, building automation, telecom power, data center infrastructure, EV charging, renewable energy, energy storage and display, to nurture the development of smart manufacturing and sustainable cities. As a world-class corporate citizen guided by its mission statement, "To provide innovative, clean and energy-efficient solutions for a better tomorrow," Delta leverages its core competence in high-efficiency power electronics and its ESG-embedded business model to address key environmental issues, such as climate change. Delta serves customers through its sales offices, R&D centers and manufacturing facilities spread over close to 200 locations across five continents.

Throughout its history, Delta has received various global awards and recognition for its business achievements, innovative technologies and dedication to ESG. Since 2011, Delta has been listed on the DJSI World Index of Dow Jones Sustainability™ Indices for 11 consecutive years. In 2021, Delta was also recognized by CDP with leadership level ratings for its substantial contribution to

climate change and water security issues and named Supplier Engagement Leader for its continuous development of a sustainable value chain.
