

FOR IMMEDIATE RELEASE

New Delta Breez Ceiling Fans Offer Chic Design and Year-round Comfort for Your Home and Business

FREMONT, Calif., November 17, 2022 — Delta Electronics, a global provider of power and thermal management solutions, introduces the new Delta Breez Rio Vista and Pleasanton Ceiling Fan Series, providing year-round comfort solutions for your home and business. Our ceiling fan pulls cool air from the floor to the ceiling in the summer and circulates warm air rising to the ceiling back down to the floor in the winter. Recognized as ENERGY STAR® Most Efficient, they provide smooth start-up, quiet operation, low vibration, and uniform multi-speed airflow for a great user experience.

Both, the Rio Vista and Pleasanton Series are up to 70% more energy efficient compared to similar AC motor products. The smooth start-up and quiet operation are enhanced by a brushless DC motor, which provides even airflow across the entire room. A hand-held remote allows you to easily adjust your preferred settings, and six fan speeds plus a reverse function are included, while a 20-watt LED light module provides up to 1500 lumens of bright light.

“Delta Breez ceiling fans continue to set the standard for ventilation technology. With an elegant design inspired by nature and quality components, these ceiling fans will serve as a beautiful centerpiece in your home,” said Alex Lee, Vice President of Channel Business, Delta Electronics Americas Region. “It works best when used in conjunction with a Delta Breez Fresh Air Supply Fan and ventilation fan to create a perfectly balanced ventilation system and a healthier indoor environment.”

The Rio Vista (8-blade) and Pleasanton Series (5-blade) are available in optional black or white, 60 or 72 inch diameter, and can be installed in numerous locations, including the living room, dining room, bedrooms, and outdoor locations such as a patio or lanai. Light commercial applications include restaurants, offices, hotels, and resorts.

Benefits:

- Recognized as ENERGY STAR Most Efficient
- Brushless DC motor offers up to 70% more energy efficiency compared to similar AC motor products
- Handheld remote with 6 fan speeds and reverse function
- 20 Watt dimmable LED light module included (1500 Lumens)
- Easy remote control pairing

- Advanced aerodynamic profiled blade design
- Wet rated, for indoor/outdoor use
- Startup with no hesitation
- Threaded downrod 3/4" Dia x 6" L, tighter stability

About Delta Breez

Delta Breez is a line of residential ventilation fans with advanced engineering. Using Delta's own brushless DC motor technology, Delta Breez fans are durable, energy efficient, and incredibly quiet. Quality and sustainability are core values of Delta, which is why Breez fans have earned the ENERGY STAR® mark. In fact, 95 Delta Breez models are ENERGY STAR® qualified and 30 models are distinguished with ENERGY STAR's Most Efficient for 2022. With noise levels as low as <0.3 sones and energy savings over 70 percent versus traditional AC motor fans, Delta Breez is built with a commitment to excellence.

About Delta Electronics

Delta, founded in 1971, is a global leader in switching power supplies and thermal management products with a thriving portfolio of smart energy-saving systems and solutions in the fields of industrial automation, building automation, telecom power, data center infrastructure, EV charging, renewable energy, energy storage and display, to nurture the development of smart manufacturing and sustainable cities. As a world-class corporate citizen guided by its mission statement, "To provide innovative, clean and energy-efficient solutions for a better tomorrow," Delta leverages its core competence in high-efficiency power electronics and its ESG-embedded business model to address key environmental issues, such as climate change. Delta serves customers through its sales offices, R&D centers and manufacturing facilities spread over close to 200 locations across five continents.

Throughout its history, Delta has received various global awards and recognition for its business achievements, innovative technologies and dedication to ESG. Since 2011, Delta has been listed on the DJSI World Index of Dow Jones Sustainability™ Indices for 11 consecutive years. In 2021, Delta was also recognized by CDP with leadership level ratings for its substantial contribution to climate change and water security issues and named Supplier Engagement Leader for its continuous development of a sustainable value chain.
