ALTENLOH, BRINCK & CO. US, INC.

The EcoVadis scorecard of ABC US provides customers with a transparent, unbiased view of how we are working towards sustainability throughout our business operations while also providing our internal teams with comprehensive feedback, benchmarking and the tools to embark upon a journey of continuous improvement.

We are honored to receive this award, which reflects our dedication to environmental sustainability and the ethical standards we uphold in our business operations and our continued focus to make a positive impact on our environment and community. EcoVadis medallions are one of the most competitive sustainability awards to attain. EcoVadis assessments are advanced and elaborate, taking months to complete, with medals awarded to just a small percentage of businesses across 200 industries and 160 countries.

“Achieving the EcoVadis Bronze Medal for sustainability management and performance for the second time demonstrates our ongoing efforts to integrate sustainability into our core operations at Altenloh, Brinck & Co. US,” said Tim Hogrefe, Quality Manager. “By adhering to strict sustainability practices, we aim to minimize our environmental footprint, foster a culture of responsible business conduct, and be accountable to our customers’ sustainable supply chains.”

By prioritizing sustainability, Altenloh, Brinck & Co. US enhances its long-term competitiveness with our local manufacturing footprint within the United States and reputation as a socially and environmentally conscious organization. The company remains committed to collaborating with our suppliers, customers, OEM partners, and their customers to drive innovation within the engineered fastener category, promote sustainable practices, and positively impact the industry.
