

Introducing a Visionary Collaboration: Hereabout and B.PUBLIC Prefab Join Forces for Exceptional Home Solutions

We are thrilled to announce an innovative and inspiring collaboration between two industry leaders - Hereabout + B.PUBLIC Prefab. This exciting partnership brings together the world of breathtaking home designs and cutting-edge high-performance building envelopes, redefining the landscape of residential architecture and construction.

Hereabout (<https://www.hereabouthome.com/>), renowned for its exquisite and meticulously crafted home plans, has long been celebrated for its commitment to turning homeowners' dreams into architectural masterpieces. With a portfolio that exudes elegance, functionality, and sophistication, Hereabout has consistently delivered exceptional design solutions that cater to the unique preferences of homeowners and housing developers alike.

On the other hand, B.PUBLIC Prefab (<https://www.bpublicprefab.com/>) has earned a distinguished reputation in the realm of high-performance building envelopes. Their expertise in creating energy-efficient, sustainable, and technologically advanced building systems has made them a force to be reckoned with in the construction industry. With an unwavering dedication to pushing the boundaries of innovation, B.PUBLIC Prefab has consistently delivered solutions that elevate the standards of quality, efficiency, and sustainability in residential construction.

The Hereabout + B.PUBLIC Prefab collaboration marks a transformative moment in the world of home construction. By seamlessly integrating Hereabouts' breathtaking home designs with B.PUBLIC Prefab's high-performance building envelopes, we are introducing a new paradigm of possibilities for homeowners and housing developers. This partnership empowers you to create not just beautiful homes but also environmentally conscious, energy-efficient, healthy, and future-proofed living spaces.

These home plans and prefab system is being offered to homeowners and housing developers aiming to redefine residential communities, this collaboration offers a tailored solution that caters to NetZero vision and values.

“Together, we are reimagining the future of home construction, where beauty and performance coexist harmoniously, offering a brighter, more sustainable tomorrow for all.” Holly Mumford, Hereabout Home.

“We work with the leading architects in sustainable design across the US. Hereabout plans offer high design and quality at an affordable price. Together we make those plans easier to build to the highest craftsmanship and long-term sustainability,” Edie Dillman, B.PUBLIC Prefab.
